Discrete symmetries and quantum gravity phenomenology

Monday, July 5, 2021 4:30 PM (35 minutes)

In my talk I will introduce kappa-deformation of discrete symmetries and I will discuss its phenomenological consequences.

Primary author: Prof. KOWALSKI-GLIKMAN, Jerzy (Institute for Theoretical Physics, University of Wrocław, Poland; National Centre for Nuclear Research, Warsaw, Poland)

Presenter: Prof. KOWALSKI-GLIKMAN, Jerzy (Institute for Theoretical Physics, University of Wrocław, Poland; National Centre for Nuclear Research, Warsaw, Poland)

Session Classification: Quantum Gravity Phenomenology

Track Classification: Quantum Gravity: Quantum Gravity Phenomenology
