

Sixteenth Marcel Grossmann Meeting

Tuesday, 6 July 2021

The Nature of Galactic Halos: Block 1 (09:30 - 12:30)

-Conveners: Asghar Qadir; Francesco De Paolis

time	[id] title	presenter
09:30	[375] A nearly complete census of intergalactic gas using the kinematic Sunyaev-Zel'dovich effect	CHAVES-MONTERO, Jonas
10:00	[244] Giant cosmic ray halos around M31 and the Milky Way	Dr RECCHIA, Sarah
10:30	[34] Primordial black holes as dark matter candidates in the Galactic halo	HAMOLLI, Lindita
10:50	[400] Searching for Intermediate Mass Black Holes in the Milky Way's galactic halo	Mr FRANCO, Antonio
11:10	[538] Virial Clouds Evolution-I: From the surface of last scattering up to the formation of population-III stars	TAHIR, Noraiz
11:30	[862] Analysis of the velocity Rotational Curves Via Weyl-Interaction Modified Gravity	BILAL, Muhammad
