

Sixteenth Marcel Grossmann Meeting

Thursday, 8 July 2021

Rotation in Stellar Evolution: Block 1 (16:30 - 19:30)

-Conveners: Georges Meynet

time	[id] title	presenter
16:30	[587] The internal rotation of low-mass stars from solar and stellar seismology	BULDGEN, Gaël VERESHCHAGIN, Gregory
16:50	[608] Internal rotation in β Cephei stars	SALMON, Sébastien
17:10	[596] Rotation in massive stars	LANGER, Norbert
17:30	[627] Rotation of Population III Stars	BROMM, Volker
17:50	[611] The Rotation of SuperMassive Stars	HAEMMERLÉ, Lionel
18:10	[698] On the dependence of magnetic fields and rotation of massive stars in the properties of their compact remnants	ALOY, Miguel Ángel
18:30	[589] Low effective spins of LIGO/Virgo binary black hole mergers	BELCZYNSKI, Krzysztof
18:50	[1055] Angular momentum transport by magnetic fields	SPRUIT, Hendrik
