

Session Program

Jul 5 - 10, 2021

Sixteenth Marcel Grossmann Meeting
Very High Energy Gamma Rays

Tue, July 6

9:30 AM

Very High Energy Gamma Rays: Block 1

Session | **Location:** Virtual Meeting | **Conveners:** Razmik Mirzoyan, Prof. Alessandro de Angelis

9:30 - 9:50 AM

First result of LHAASO: Implication for extreme particle accelerators

Speaker

Ruoyu Liu

9:50 - 10:10 AM

On correlation between diffuse gamma ray and neutrino backgrounds

Speaker

Elisa Bernardini

10:10 - 10:30 AM

Insights into the the Galactic Center environment from VHE gamma-ray observations with ground-based facilities

Speaker

Christian Fruck

10:30 - 10:50 AM

Probing Lorentz Invariance Violations with the MAGIC telescopes

Speaker

Giacomo D'Amico

10:50 - 11:10 AM

The TAIGA experiment

Speaker

Dr Martin Tluczykont

11:10 - 11:30 AM

Science with SWGO

Speaker

Kristi Engel

12:30 PM
